This training course will introduce methods to perform Meta-analysis. Extract data, assess the risk of bias, and perform a meta-analysis will be covered in this course.

Course Content

1. The process used to collect and extract data
2. Methods to critically assess the risk of bias of the studies
3. Perform and interpret the results of meta-analyses

Course Schedule

Day	1st Session 9.30 am to 12.30 pm	2nd Session 1.30 pm to 3.30 pm
19.12.2022	Introduction to meta-analysis	Practical using R software (Prevalence based Meta analysis)
20.12.2022	Practical using R software (Odds ratio based Meta analysis)	Practical using R software (SMD based Meta analysis)

Course Date

19th Nov 2022 – 20th Nov 2022

Venue

University Building, 13th floor, Centre for Statistics

Participant Fee

1000 INR/Person

Co-ordinator

Dr. M. Bagavandas (Head)

Course Instructors

Mr. G. Saravanan

Mr. V. Raghul Gandhi

No of Participants: 09
