SRM INTERNATIONAL HAND CONCLAVE 2025

"Empowering hand care; Innovative solutions and collaborative approaches"

Introduction

The SRM International Hand Conclave 2025 is a global initiative by SRM College of Physiotherapy (SRMCPT) to address disparities in access to quality hand care. This event will bring together clinicians, researchers, industry leaders, and patient advocates to share knowledge, explore innovative solutions, and establish sustainable partnerships to enhance hand rehabilitation worldwide.

Purpose

As a pioneer in hand therapy education since 1999, SRM College of Physiotherapy recognises the growing need for specialised hand rehabilitation services.

The conclave aims to:

- ▶ Foster collaboration between hand surgeons, therapists, and healthcare professionals.
- ▶ Develop cost-effective, adapted rehabilitation techniques for underserved populations.
- ▶ Promote awareness and integrate hand care into global health systems

About SRMCPT

SRM College of Physiotherapy (SRMCPT) is one of the leading institutions in physiotherapy education, research, and clinical practice. With a legacy of over 25 years in hand therapy training, the college has produced skilled professionals who have contributed to advanced rehabilitation services globally. SRMCPT is committed to excellence in education, innovation, and patient care, making it a hub for transformative healthcare solutions.

Understanding Hand Rehabilitation

Hand rehabilitation is a specialised field focusing on restoring function, strength, and mobility in individuals with hand injuries, conditions, or post-surgical recovery.

This conclave envisions :

- ▶ Latest surgical & therapy protocols for hand conditions.
- ▶ Innovative, cost-effective rehabilitation strategies for resource-limited settings.
- ▶ Multi-disciplinary approaches integrating surgery, therapy, and assistive technology.
