## MODELS

1. LION figure tattoo with LOVE & ASSAN on front of chest.
2. KOLOM tattoo on front of forearm.
3. Flowing of fluid from the angle of mouth and nostrils (PURGING).
4. Occupational marks in hands (CALLOSITIES).
5. Bloated face, protruded eyeballs and tongue with purging (PUTREFACTION).
6. Gripped weapons – CADAVERIC SPASM.
7. Decaying blood vessels (MARBLING).
8. Linear contusion (sign of CANNING).
9. Tram line contusion (sign of LATHI BLOW).
10. Multiple punctured wounds on the neck.
11. Small multiple abrasions & contusions in forehead & face (RTA).
12. Multiple split laceration with marginal abrasions seen over forehead and face.
13. Healing of a wound in the sole of foot by secondary intention.
14. Bullet exit wound over back of head.
15. Bullet entry wound over right temple.
16. Model revealing emphasis of suture removal for studying the wound.
17. Contact wound (ELECTRICAL).
18. Contact wound over left thigh (ELECTRICAL).
19. Parted scalp hair revealing an injury of the scalp & the skull.
20. Tyre tread (PATTERNED ABRASION) over lateral aspect of right side abdomen.
21. Nose cut off with a knife.
22. Exhumed body: Eye balls are intact, scalp hair have come off due to decomposition.
23. Adipocere formation.
24. Postmortem injuries by aquatic animals.
25. Suicidal hanging.
26. Partial hanging.
27. OBLIQUE LIGATURE & mark on the neck in case of death by hanging.
28. Strangulation showing HORIZONTAL LIGATURE mark encircling the neck.
29. Suicidal cut over front of neck.
30. Double headed monster, a congenital malformation.
31. Sex assault & murder by strangulation.
32. Types of HYMEN – set of six models.
33. Bullet entrance wound over left parietal bone.
34. Bullet exit wound over left parietal bone.
35. Epiphyseal fusion wheel.

## MODELS

1. Tattoo mark over the front of chest
2. Tattoo mark on the arm
3. Folling of fluid from the angle of mouth & nostrils
4. Types of occupational marks
5. Protusion of eye bolls & tongue & presence of blood stained fluid in case of burns.
6. Cadaveric spasm stiffness of the firm ally grassped hand.
7. Putrefaction blood stained fluid at nostril swollen eyelids & marbling on the right shoulder & neck.
8. Contusions – caused by blow from blunt weapon (lathe)
9. Brusies: Showing parallel liner haemorrhage due to lathe
10. Incised wounds on the neck
11. Road accident – small multiple abrasions & confusion in forehead & face
12. Multiple homicidal split – lacerations with marginal abrasions
13. Healing of wound
14. Exit wound – homicide by shooting with a gum
15. Entrance wound – showing the characters of a near discharge
16. Model revealing emphasis of suture removal for studying the wound
17. Electric injury – lesion of hand from contact with live wire current 250v
18. Electric burn contact mark over left thigh
19. Parted scalp hair revealing an injury of the scalp & the skull
20. Tyre marks
21. Injuries – nose cut off with a knife
22. Exhumed body – after 3 days of burial eyeball are infact, scalp hair have come off due to decomposition
23. Adipocere – formation on the soft tissues of lower limbs
24. Postmortem destruction of lobule of external ear eyelids & the ala of the nose (case of drowning) recovered from water.
25. Suicidal hanging
26. Partial hanging
27. Ligature mark on the neck in case of death by hanging.
28. Strangulation showing transverse ligature marks all around the neck.
29. Suicidal cut
30. Double headed monster a congenial malformation
31. Sex assault & murder by strangulation
32. Types of hymen set of six models
33. Epipyseal fusion rule
