

**DATE : 10/10/2013**

**VENUE:EEE Seminar Hall (Main Campus)**

**SRM UNIVERSITY**  
**FACULTY OF ENGINEERING AND TECHNOLOGY**  
**Workshop on General Introduction about IPR and its emerging trends**  
**(RK Dewan & Co)**

The Guest speakers AdvA.K.Balaji & AdvS.Nithya, for R.K.Dewan& Co highlighted how IPRs inherently embody a policy conflict. between the objective of providing an incentive to technological innovation and the objective of encouraging the rapid diffusion of new technology and the accumulation of technological knowledge. IPRs inherently embody a policy conflict between the objective of providing an incentive to technological innovation and the objective of encouraging the rapid diffusion of new technology and the accumulation of technological knowledge. The changes in technology, however, occasionally result in inventions that do not fit the old categories of patentable subject matter or cannot meet other requirements for patentability. The Workshop focused on the nature of these changes, the challenges they present for national and international IPR systems, and their implications for science and technology.
