**NATIONAL CONFERENCE ON RECENT
RESEARCH IN ADVANCED COMPUTING**

NCRRAC'19

5TH APRIL, 2019

Organized by

**DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING
SRM IST
Ramapuram Campus**

About the Institution

SRM Institute of Science and Technology is one of the top ranking private institutions, offering wide range of Undergraduate, Postgraduate and Doctoral program in Engineering, Management, Medicine and Health sciences, Science and Humanities. Faculty from abroad, flexible and dynamic curriculum, exciting research and global connections are the features that set SRM apart. Students have a wide choice of cutting edge programmes including Computing Technology and embedded systems. Most of the courses are offered in close collaboration with abroad in various universities. Ramapuram Campus is in the heart of the city which is in close vicinity to industrial fields and commercial hotspots. It has various student committees, forums and clubs which aim in honing their overall skills and providing them multi dimensional opportunities.

About the Department

The Department of Computer Science and Engineering, SRMIST, Ramapuram campus, has been functioning since 2004. The vision is to strengthen and boost the skills of the students in fundamentals of computer science and to foster in-depth technical knowledge to produce adept and proficient Engineers. Outstanding faculty members are available to import quality education to the students. The mission of the department is global excellence in research, teaching and technological development for societal benefits. Keeping pace with the current technological trends, we ensure that education of high quality and high standard is bestowed to students, which keeps us on a high growing path. Fostering creative thinking and encouraging innovation among the students are few of our prime goals. The meritorious placement of our alumni in various super dream companies all over the world and achievement of 100% placements in every academic year. The variety of trending courses provided along with our diverse and multifaceted approach to education, has made students achieve great heights. The entire team of faculty members and students strives towards excellence.

About the Conference

The objective of this conference is to bring researchers and UG/PG Students together to explore challenges, issues and opportunities in advanced computing, including distributed systems and recent trends in computer applications. This conference will analyze the emerging issues in recent research areas and provide a platform for the researcher to publicize their latest development in the respective fields.

Call for Papers

Papers are invited from Research scholars, Academicians and UG/PG Students. Full Papers not exceeding 6 pages prepared in IEEE format should be submitted through **Easy Chair** submission page (Link available at ncrrac.in). For each accepted paper to be published in the conference proceedings, at least one author of the paper should register for the conference and need to send 2 hard copies of the paper along with registration form to THE CONVENER. The topics of interest includes, but not limited to the following.

- Machine Learning
- Ad-hoc & Sensor Networks
- Big Data Analytics
- Data Mining
- AI & Neural Networks
- Mobile Computing
- Cloud Computing
- Distributed Databases
- Block Chain
- Grid Computing
- Soft Computing
- Image Processing
- Web Intelligence
- Cyber Security

Address for Communication

**The Convener,
