

Functional Committee for THE Impact Ranking / UI Green metrics / SDGs

In pursuance of the action plan for performance evaluation, assessment and accreditation and quality up-gradation of Institutions of Higher Education for the THE Impact Ranking for SDGs and UI Green Metrics (Green Structure, Energy, Waste, Water, Transport and Education) to improve the score we proposes that SRMIST would like to establish **Green Initiatives and Environmental Sustainable Development CELL** as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process, the SDG Cell will become a part of the institution's system and work towards achieving the goals of quality enhancement and sustenance. The prime task of the SDG CELL is to develop a system for conscious, consistent and catalytic improvement in the overall performance of SRMIST in 6 major Indicators of UI Green metrics and 17 SDGS. During the post-accreditation period, it will channelize all efforts and measures of the institution towards promoting its holistic green initiatives excellence and improving THE Impact ranking. In order to execute the activities attached with SDGS CELL, as per the recommendation of MoM of Pro Chancellor's (Academic) meeting a separate Functional committee has been constituted with the following members from various faculties and propose to include student members and clubs.

Responsibilities of the Functional Committee

1. Scrutiny of UI Green metric rank, THE Impact ranking data & seek clarifications to improve the ranking.
2. Identify UG and PG students for their projects
3. Offering suggestions to improve the quality / quantity of the data
4. Discuss with higher authorities and finalize the data
