ABOUT THE AYURVEDA NATIONAL CONFERENCE

The objective of the one day national conference is to generate awareness as well as highlight the potential of Ayurveda based integrative approach for P5 (Personalized, Preventive, Predictive, Participatory and Promotive) medicine. This will make the P5 approach to Ayurveda more holistic and data driven thereby improving the patient well being.

Towards this objective the conference aims to bring together pioneers and experts in the field of Ayurveda research to share their knowledge to the budding researchers in the field of Ayurveda, Pharmacy, Medicine, Biotechnology, etc.

ABOUT INTERDISCIPLINARY INSTITUTE OF INDIAN SYSTEM OF MEDICINE (IIISM)

Interdisciplinary Institute of Indian System of Medicine (IIISM) is a prestigious school of SRM Institute of Science and Technology which was established with the aid of DST-DPRP scheme in 2008 to promote research in the field of traditional system of Indian Medicine, including Ayurveda, Yoga, Unani and Siddha. The role of IIISM is aligned with the SRM IST's goal of achieving excellence in the field of herbal research and developing herbal products that will serve both the Indian and world community. Towards this goal a 12 crore research facility containing top of the line research equipment was established. This facility consists of one of a kind fully functional clinical Metabolic ward along with high-end analytical equipment like, 500 MHz NMR, LC-MS, AAS, HPTLC, UV, IR spectrophotometer, Flowcytometry, Confocal Laser Scanning Microscope, RT-PCR, etc. These research facilities are run and maintained by 6 Faculty members with international exposure and expertise in interdisciplinary fields related to Ayurveda, natural product chemistry, molecular and immunobiology, biophysics, etc. Along with this 8 support staff and several research scholars help maintain high standards of research output from the institute. Thus, over the past decade IIISM has successfully generated several herbal based medicinal products resulting 4 US and 3 UK patents. Apart from this more than a dozen Indian patents have also been published and granted. This has led to tie-up with topmost herbal industries and companies. These company collaborations have fructified in the form of joint research activities with aim of bringing out scientifically validated herbal based medicines to the society.
