## Message from the Editor

Hi Associates,

Travelling in the Train of passengers, astonishing with the RailYatri data, which provides the mobile network coverage for any train, where the Delhi-Howrah (Kolkata) train route has the highest mobile connectivity with Airtel offering the widest coverage. Yes. The Peripatetic routes are networked with our sensitive thought communication which helps the human community in Academics, Research, and Innovation through excellence by the Networking and Communication Department, School of Computing.

Many times the wrong train took us to the right place, where our initial beliefs wavered and harmonized at the focal point of convex right now. An IDC report, 'The Business Value of Edge in a Digital-First World,' says that nearly 6 in 10 enterprises in Asia Pacific are planning to integrate edge fully into their cloud-based infrastructure. Wi-Fi 6 will make huge inroads into the enterprise: Estimated to be more than 30% faster than Wi-Fi 5, Wi-Fi 6 can make a huge difference with huge improvements in speed and reduced latency in environments like stadiums, airports etc. that have a higher density of devices.

5G will unleash a new wave of innovation: 5G has an estimated theoretical speed of 20 Gbps compared to 1 Gbps for 4G and providing high bandwidth applications to create a fertile ground for encouraging development of Augmented Reality or Virtual Reality apps with an impact on sectors such as telemedicine, remote classrooms where high bandwidth applications are deployed.

SD-WANs have surged in popularity and are expected to dominate enterprise networking ecosystems in 2022 as well as per the report by Dell'Oro Group where 40% of organizations having multi cloud access, the adoption of SASE in conjunction with SDWAN is only going to gain momentum in 2022 and beyond.

AI will be a default choice for network automation: With the growing complexity and a huge increase in traffic, AI will be a default choice for automating many manual processes done by network administrators. We step in with the contributions of all kinds, from students to faculty. We will expand our horizons in the fields mentioned with exciting innovative beliefs.

*It is better to Travel well, than to Arrive!*

## ABOUT THE DEPARTMENT

Department of Networking and Communications under School of Computing intend to meet the expectations of the aspiring students and to add more value to the degrees offered. The Department ensures to provide quality and value-laden education for students in the traditional and contemporary areas of Cloud Computing, Computer Networks, Cyber Security, Information Technology and Internet of Things. The programs are introduced in partnership with reputed IT companies like Amazon Web services, K7 Security, Virtusa etc. The department consists of a medley of faculty members with industrial and academic experience. The Department's keen focus is towards "networks" domain specific and specialization-based placement drives for its students. The department inculcates entrepreneurial skills in budding aspirants to pitch their innovative ideas through SRM Innovation and Incubation Center. Our International and alumni connect intrigue in bridging the gap between the trio: Academics - Industry - Research

### VISION

To Nurture as globally recognisable department in imparting the students high quality education and providing high confidence, unique knowledge and research experience in the field of networking, cyber security, forensics, information technology, cognitive computing and internet of things.

### MISSION

- \* To provide world class IT professionals with appropriate industry and research based curriculum
- \* To train the students in such a way that leads to entrepreneurship and develop societal need based industries
- \* To nourish the students as a socially responsible professionals by providing them training in personality development, ethics and leadership program.

**Dr.K.ANNAPURANI PANAIYAPPAN,**  
**Professor & Head**

Department of Networking and Communications  
School of Computing  
College of Engineering and Technology (CET)  
SRM Institute of Science and Technology  
Kattankulathur - 603203

Perfection is an illusion. But we all try hard to achieve atleast a shard of it to control the chaos. Lets try our hardest and be more understanding amidst the current situation of uncertainties to retain just a piece of normalcy.

- Dr.K. Annapurani Panaiyappan

Prof & Head Dept. of NWC

## List of Consultancy Works

Title of the collaborative activity	Name of the collaborating agency	Name of the participant	Amount(Rs)
MK Freight Management system	MK Transports	Dr. K.Kalaiselvi, Dr. K.Deepa Thilak	24,000
JDesignS	Caddycode Solutions Pvt Ltd	Dr. TYJ Naga Malleswari	30,000
Neighbourhood crime data analysis	Samsung PRISM	Dr. Kayalvizhi Jayavel	22,000
AICTE Spices	AICTE	Dr. Kayalvizhi Jayavel	1,00,000
AAIW	AIJ	Dr. Kayalvizhi Jayavel	1,00,000
NFHS-5	MoHFW	Dr. Kayalvizhi Jayavel	3,00,00,000
Invitreo Healthtech Ventures pvt. Ltd.	Healthcare	Dr. Suresh Sankaranarayanan, Dr. K.Annapoorani	80,000
DubMania	Code Neuron Technologies	Dr. L.Anand, Dr. L.N.B Srinivas , Dr. M.Thenmozhi	1,18,000
Career portal	Martin Colt	Dr. L.Anand, Dr. V.Hemamalini, Dr. K.Annapoorani	60,000

## Notable Projects

Sl.No	Name	Category	Project details
1	Dr.E.Sasikala, Dr..Vaishnavi Moorthy & Dr.Revathi Venkataraman	DRDO Funded Project	Co-Principal Investigator in DRDO Funded Projects "Secure Configuration for Heterogeneous Wireless Networks", funded by DRDO SAG Lab for 23.61Lakhs (ongoing Dec 2020 onwards for 20 months),
2	Dr.M.pushpalatha Dr..Vaishnavi Moorthy	Collaborative Projects	Developing an application for "Mood analysis and recommendation system for smokers " in association with Dr.Prakash, faculty of SRM public health  Samsung Prism Worklet 3rd Phase 2021: "Sensor Mood Profiling" (Ongoing), April 2021 onwards,
3	Dr.Vaishnavi Moorthy	Selective Excellence Research Initiative - SRM	Developing a mobile phone application to check drug-food interactions" (ongoing) sanctioned under Selective Excellence Research Initiative – 2021 for Rs.75,000, Dr.Jagadesan (Department of Pharmacy in practice, SRM),
4	Dr.Vaishnavi Moorthy, Dr.Revathi Venkataraman	Collaborative Projects	Mobile Application for Monitoring Mental Health" (Ongoing) for Royal Brisbane and Women's Hospital, Southern Queensland, Australia,

# MOU

**MoU between SRMIST-KTR and Vectra Technosoft Pvt. Ltd. Signed on 02.11.2021**

**Convener: Dr. K. Annapurani**

**Co-convener: Dr. CNS Vinoth Kumar, Dr. P. Vigneshwaran**

The purpose of this MOU is to conduct online training in the premises of SRMIST, KTR, and to conduct the (Competitive/ Higher Education Preparation/Industry Ready) courses for the students of SRMIST, KTR.

# FACULTY MEMBERS ACHIEVEMENTS

S.No	Name Of The Faculty	Name Of The Achievement	About The Event
1	Dr.C.N.S.Vinoth Kumar	Best Paper Award	Received Best Research Paper Award in the category of Intelligent systems on 2nd Congress on Intelligent Systems CIS 2021 held in Christ Deemed University, Bangalore during Sep 04th & 05th 2021.
2	Dr.C.N.S.Vinoth Kumar	Certificate for Best Paper	Certificate of Best Paper Award in the AICTE sponsored "International Conference on Modern Research & Computations in Electrical Technology (ICMR CET-2020)" Organized by Department of Electrical & Electronics Engineering & Internal Quality Assurance Cell (IQAC) during 7th & 8th January 2021.
3	Ms. C. Fancy	Best Paper Award	Received Best Paper Award in the 1st Virtual International Conference on Innovative Computational Intelligence conducted by Francis Xavier Engineering College, Tirunelveli on 7th May 2021.
4	Dr.R.Radhika	Young Scientist Award	Global Research Foundation is a Delhi-based leading international organization in the field of academic research worldwide. Global Research Foundation provides a platform to worldwide researchers and instituted a number of awards in different disciplines. This award is for the Invaluable contribution provided by the awardee for the growth and prosperity of a Nation that provides the scientific and technological development of the country.
5	Dr. L.Anand & Dr. V.Hemamalini	The initiative taken by us for inviting Optimeyes.ai and BITCS super dream company	<b>Optimeyes.ai</b> The initiative took by Dr. L.Anand & Dr. V.Hemamalini for our department to place our NWC students. 3 students got placed with a PPO offer of a package of 10-15LPA with a stipend of 20k during the Internship. <b>BITCS</b> The initiative took by Dr. L.Anand & Dr. V.Hemamalini for our department to place our NWC students . 4 students got placed with a PPO offer of a package of 10LPA with a stipend of 15k during the Internship.
6	Ms. V.Vijayalakshmi	International Conference Technical program committee member	Being a Technical Program Committee member in the following International Conference I helped in handling issues related to paper submission, review, etc. Also helped in reviewing the papers and allocating paper to the technical team based on their domain.

# FACULTY MEMBERS ACHIEVEMENTS

S.No	Name Of The Faculty	Name Of The Achievement	About The Event
7	Dr. Mary Subaja Christo	Guest Lecturer on Machine Learning	She gave the Guest Lecturer on Machine Learning. In this event, she explained the machine learning concept based on the following topics Need for Machine Learning, What is Machine Learning, Machine Learning Definitions, Machine Learning Process, Types of Machine Learning and Demo.
8	Dr. K.Kalaiselvi, Dr. K.Deepa Thilak	Book Publication	Optimization techniques in wireless body area networks is the title of a book published by AkiNik Publications in New Delhi. The several optimization techniques implemented in wireless body area networks are covered in this book.
9	Dr. L.Anand	ISRO Internship	The initiative took by him 11 students from various departments of our university selected for an internship in ISRO-IIRS to work with ISRO-IIRS scientists. Total students applied all over India 10000 students, Total Selected students 100, out of 100, 11 students from SRM Institute of Science and Technology KTR Campus
10	Dr. L.Anand	AICTE Internship	Many students from various departments have registered in the AICTE Internship portal and have applied for many internships including IT and Non-IT Sector. Department coordinator is from all departments of E&T are motivating the students along with their faculty advisors.
11	Dr.P.Supraja	DD Podhigai Interview	She has been invited as a guest for Vanakam Podhigai show to felicitate her Best Teacher Vishvesharaya Award 2021.
12	Dr.P.Supraja	Wednesday Speaks-Aarush	She conducted an interactive session on the topic "Mind Map to Unleash your Brain's Activity" on 12th Jan for Wednesday Speaks session initiated by Team Aarush.She gave insights on need for brainstorming, simplifying complex tasks and performing graphical organization to facilitate deeper understanding,

## **Atmospheric Water Harvesting Using Solar Energy**

Recently, WHO has announced accessible safe drinking water by 2030 is an international development priority. Global water scarcity is a major crisis, especially in developing countries. Any safe drinking water is defined to be contamination-free. In recent times, Atmospheric Water Harvesting (AWH) has seen progress towards generating drinking water from the air. It shows great potential in addressing the world's water crisis. It can be used to produce water even in arid and semi-arid regions. Solar energy which is available in abundance in this world is the major source used to extract water from the air. AWH includes active and passive devices for harvesting water present in the form of relative humidity in the air. The active devices use external energy present mainly as solar energy. The passive devices rely solely on the atmospheric pre-condensed dew or fog which is collected. Traditionally, AWH used passive devices and thus were restricted by the atmospheric conditions. However, nowadays, AWH is using hydrogel materials synthesized specifically to trap water molecules from the air. To obtain liquid water, the hydrogel is later kept under the sun in a condenser thus utilizing solar energy. As it can be inferred, the water release process consumes high energy and is a challenge as well. Extracting maximum water yield even in low relative humidity conditions is a major goal. In a typical environment, the hydrogel is placed open during the night as the relative humidity (RH) at night tends to be comparatively higher. The gel material starts capturing the water molecules present in the form of vapor in the air. During the day, the water-infused gel is then placed inside a condenser under the sun to produce water. Solar energy enables the release of the captured water molecules. This is the typical cycle seen in AWH. Thus, in AWH, materials like desiccants like silica gels, zeolites, Metal-organic Framework based materials are the materials usually designed towards this purpose of maximum yield with minimal energy. An article published in Nature has determined that a one-meter square device that can produce 0.2 L to 2.5 L per Kilowatt Hour under 30-60% RH can meet the average requirement of 5L per person in a day. Thus, AWH could exhibit a tremendous impact in providing accessible drinking water everywhere in the world very soon.

# STUDENT ACHIEVEMENTS

## Student Startups

**Johny Samuael S**

**Startup name :-** Rezzlon Private Limited

**Industry-** Software and technology

/ Anti Counterfeiting

**Ownership type-** proprietorship

**Vision-** A B2B startup that provides Mass Serialisation, Anti Counterfeiting Solutions and Supply Chain Management Systems for companies. Innovated a novel algorithm for Mass Serialisation and Anti Counterfeit, that generates millions of secure traceable crypto enabled codes in seconds, which is currently used by over 35 Lakh Products in the supply chain. Our services such as End to End inventory control and supply chain management are used by MNCs. The vision of the company is to make sure every product and taxable invoice does not get counterfeited.

**Team strength -** 3 members

**Founders-** Johny Samuael S and others

Student from 3rd Year CSE with specialisation in Information Technology, L1 Section

**Faculty Advisor :** Dr.P.Supraja

**Johny Samuael S, Dhruv Bhagwat, Saket Kattuboina**

**Startup name-** Tesseract Inc

**Industry-** Internet of Things, Consumer Electronics

**Ownership type-** proprietorship

**Vision-** A D2c Startup company that was launched which tailored interconnected pair-able IOT Lamps. This was the World's first long-distance lamps that come with an inbuilt WiFi extender. Completed the product cycle, architected and wrote the algorithms to make this product a reality and sold multiple units in only a month. Sponsored various events in SRM, IITs, NITs and much more to advertise the importance of mental health.

**Team strength -** 5 + members

**Founders -** Johny Samuael S, Dhruv Bhagwat, Saket Kattuboina and Others

Students from 3rd Year CSE with specialisation in Information Technology, L1 Section

**Faculty Advisor :** Dr.P.Supraja

## Student Startups

Somya Sarathi Samal, Shobhit Srivastava, Khushboo Rupani,  
Pratiksha Ghosh

**Startup name-** Zevamp (zevamp.com)

**Industry-** Education, Technology

**Ownership type-** Not registered yet (Pvt. Ltd. in process)

**Vision-** We intend to offer Zevamp for the age group between 16 to 24-year students and young employees across the world. So that they will be able to enhance their personality through conversations and our psychologically standardized meet environments. We provide moderated frameworks and mentorship programs. The idea recently got backed by Microsoft for Startups, Razorpay Rize and 100X.VC Gurukul Class 03.

Current finalist: UDGAM IITG, IDEATHON IIT R, IIM Bangalore NSRCEL Incubation - Second Position, NIT BHOPAL

**Team strength-** 7 members

**Founding Team:** Somya Sarathi Samal, Shobhit Srivastava, Khushboo Rupani, Pratiksha Ghosh from SRMIST (+ 3 other college students Garima(IGDTUW), Hardik (BVP COEP), Divyanshu (NSUT) Students from 3rd Year CSE with specialisation in IT, CSE with specialisation in CC

**Faculty Advisor :** Dr.P.Supraja, Mrs.A.Helen Victoria, Dr.P.Balamurugan

Harshit Prakash

**Startup name-** Barb Salon Services

**Industry-** Internet, Fashion and technology

**Ownership type-** proprietorship

**Vision-** Barb is an app based startup which aims to provide people all over to book their salon appointments through the app without hassle and eliminate the waiting time that they face in salons during this time of corona, keeping every booking online, people can decide exactly what they want and this would help small salons and beauty parlours increase their business in the long run. Aim is to revolutionise the salon industry through our startup.

**Team strength -** 15 to 20 members

**Founder -** Harshit Prakash

2nd Year CSE with specialisation in Computer Networking

**Faculty Advisor:** Dr.k.kalaiselvi

# STUDENT ACHIEVEMENTS SIIC Funding

**SIIC Funding Project Title :** Smartisation of Anti Infiltration Obstacle System

**Amount :** Rs.1,60,398

**Faculty Mentor :** Dr. Annapurani Panaiyappan.K

**Student Team :** Rajat Pathak, Kumar Vaibhav, Pratiksha Mohite, Prateek Tatikonda, Uttez Pallapothu, Anish Chaudhary

Border security forces are diligent in eradicating infiltration across borders to establish peace in the country. By introducing a smart system, we would lend them a hand in escalating peace across the country and ceasing infiltration of foes across borders. The need of the hour is to design an automated border surveillance system which can perform the surveillance task without requiring any human assistance.

Completed all requirements and criteria for Certified Ethical Hacker certification through an examination administered by EC-Council.

# STUDENT ACHIEVEMENTS

**Vinoth S**

III Year

B.Tech NWC- Cyber Security

Completed 8 weeks NPTEL Online Certification course on Cloud Computing from August-October 2021 and earned an Elite Certificate.

**Malempati Varun**

III Year

B.Tech NWC- Cloud Computing

He has been recognized as Oracle Cloud Infrastructure Foundations 2021 Certified Associate by Oracle Corporation.

**Shyam Babu P**

III Year

B.Tech NWC- Cyber Security

He has been accredited ISO 9001 Quality Management Systems Associate by SkillFront

**Ishi Saxena**

III Year

B.Tech NWC- Information Technology

From the team, Hack Runners has created Bowie and ranked 1st in the CC-Hacks 2021 Event

**Soumiya Chadha**

III Year

B.Tech NWC- Information Technology

From the team, Hack Runners has created Bowie and ranked 1st in the CC-Hacks 2021 Event

# STUDENT ACHIEVEMENTS

**Bhurva Rajiv Sharma**

II Year

B.Tech NWC- IOT

Has been selected for the 2022 HPAIR Harvard Conference organized by the Harvard College Project for Asian and International Relations, Cambridge, USA.

**Aishani Ghosh**

III Year

B.Tech NWC- Information Technology

From the team, Hack Runners has created Bowie and ranked 1st in the CC-Hacks 2021 Event.

**Gayatri Ramakrishnan**

III Year

B.Tech NWC- Cyber Security

She has completed the room Advent of Cyber 2021 organized by Try Hack Me.

**Nair VyshakhGopakumar**

III Year

B.Tech NWC- Cyber Security

He has completed the room Advent of Cyber 2021 organized by Try Hack Me.

**Sneha Sunil**

III Year

B.Tech NWC- Cyber Security

She has completed the room Advent of Cyber 2021 organized by Try Hack Me.

# STUDENT ARTICLES

## The “unrealistic” future

**Bhurva Rajiv Sharma**

**II, B.Tech NWC- IOT**

The advent of Web3 is the most awaited technology of the year 2022. As we are stepping into the future, significantly, more and more of it is becoming virtual. The first version of the internet was called web1, mainly static websites hyperlinked to one another, and the one we used until now was web2, dynamic websites with e-commerce and social networking boom. Web3 is game-changing, it is aimed to be fully built on blockchain and has enhanced privacy measures enhancing everything from banks to agriculture to every aspect of the world economy and our lives. Big corporations have so much of our data now that privacy is next to null on the internet today. Web3 will help decentralize the internet from these tech giants and give us the users more control and freedom concerning our data, but the tricky part is that these big corporations are now going virtual, the best example- Meta. By building a Metaverse, Meta aims to take cryptocurrency in an already booming crypto environment completely virtual. With no proper regulation, these things are on the fine line of being too good to be true and revolutionary. While the future is moving headfirst into the Metaverse and AR/VR it might just be carrying unrealistic expectations along with the technology too.

## Ubuntu v/s Windows: A Quick Comparison

**Rushaan Gandhi**

**II, B.Tech- Cloud Computing**

Windows is a paid software, whereas, on the other hand, Ubuntu is completely free to use software. Like most Linux-based software, Ubuntu is safer as compared to Windows. Sensitive data of users is not collected by software belonging to the Linux family. On the other hand, Windows is not as much privacy-centered as compared to Ubuntu. On one hand personalization options available at Windows are mainly focused on wallpapers, themes, and icons. On the other hand, Ubuntu provides comparatively a larger option for personalization to its users. Windows also has a higher consumption of resources as compared to Ubuntu. Windows users depend a lot on hardware like keyboard and mouse for various operations and they can operate in a graphical interface. Ubuntu has both a graphical interface as well as a command-line operation interface. Users may need some assistance to start operations, hence Ubuntu requires users to be Technically sound.

## IOT USING AI ALGORITHMS

**Aayushi Goenka**

**III, B.Tech- IT**

Artificial intelligence is a simulation of human intelligence, machines programmed by humans to mimic the way the human brain thinks, and derive conclusions on its own given a set of input. In general, AI systems work by taking in large amounts of labelled training data, analyzing the data for correlations and patterns, and using these patterns to make decisions.

At its core, IoT is about sensors implanted into machines. IoT helps in capturing a tremendous amount of data from multiple sources. So, whilst sensors from devices deliver data, it is rendered useless if it has no form or structure. IoT deals with devices interacting using the internet and collecting data from multiple sources and AI makes the devices learn from their data analysis. AI can utilize the data optimally, providing both context and creativity to drive smart actions. Furthermore, AI with IoT can deliver an adaptive or autonomous response. This means solutions can incorporate continuous data streams where the system learns to devices perform definitive actions without being explicitly programmed for it i.e., without human intervention.

For example, robot manufacturers are provisioning robots with sensors that enable them to read their environment which is supporting them to take the optimal action with the support of implanted sensors. These tools pick up on external information such as visual and sensory input. Moreover, as the robots are equipped with artificial intelligence algorithms, they can learn from newer data. This approach not only saves time and cost but also makes the manufacturing process better over time.

IoT applications can predict machine failure before it happens, reducing production downtime. Thus, the convergence of AI and IoT can accelerate the way industries and businesses can flourish

# ALUMNI MESSAGE

## The Lone Wolf

**ALKAFF**

**B. TECH IT (2015- 2019)**

After deciding that I want to pursue Bioinformatics for my career, I did a bit of research and understood that it would be better to take an undergraduate from a Computing track than Biology or Life Sciences track. So I joined SRM's B.Tech (IT).

During the 4 years, I was fully focused on my goals and I have to thank all the staff and teachers here. All of them had helped shape me towards my dreams of becoming a Bioinformatician even though my goals were very different from most of my batch mates. I had the strong determination and perseverance to achieve my goals, so I fight my way through from getting biology open electives to doing my final project in Bioinformatics with collaboration from Genetic Engineering Department. I was nominated as the best project in the department by SRM IEEE Association and after graduation, I also got my dream job as a Bioinformatician in A\*STAR (Genome Institute of Singapore).

My advice for my juniors, the first thing is to set their goals. Then work hard and persevere, fight for what you want. There will be so many challenges and obstacles, still don't give up. Eventually, you will succeed in your goals. You are lucky to be in SRM because be it any department, you are bombarded with tons of opportunities. Go for those you find interesting. It may be difficult to be away from home at the starting but keep those aside and focus on why you came here.

# NWC CLUBS

## Networking and Communications Association

NWC is a student association formed exclusively for the Specializations in Information Technology, Internet of Things, Computer Networking, Cybersecurity, and Cloud Computing of the Computer Science Engineering branch under the umbrella of 'School of Computing'.

### Events organized

- Green Space (Plantation Drive)
- BlockChain Technology and its application
- 5V5 Valorant Event

## Clubs

### SRM HACKATHON

The hackathons provide a great opportunity for the participants with the wide-spread themes such as sports, agriculture industry, education, e-commerce, finances, and betterment of underprivileged.

### SRM IDEATHON and SEMICOLON

SRM Ideathon is a national level online event where the participants are given an opportunity for participants to put forth their innovative ideas. On the other hand Semicolon is a technical online event for the students of campus to take a test of their technical skills.

### GEN-Y

Emphasizes on the importance of Building and promoting collaborative learning. Being a team with the notion, 'Together Ordinary People can Do Extraordinary Things', we aim to uplift the skills of each and every individual in our community.

### OWASP: STUDENT CHAPTER FOR CYBER SECURITY AND CYBER AWARENESS

OWASP is a non-profit foundation dedicated to improve the security of software, the goal of helping website owner and security expert's project web application from cyber security.

### SALESFORCE STUDENT GROUP (SRM)

Salesforce is an American cloud-based software company working on bringing Artificial Intelligence to everyone using the world's #1 CRM platform. TrailHead is a platform introduced by Salesforce to enable people to learn In-Demand Skills and earn resume-worthy credentials to help showcase their skills and to stand out on the global stage.

# NWC CLUBS

## **Rotaract club of SRM Kattankulathur**

Sponsored by Rotary Club of Meenambakkam Rotary International District 3232

### **IoT ALLIANCE-AN IoT BASED TECH CLUB**

This club is supported under AICTE SPICES Scheme- Received Grant-in-Aid- Role Model Club. The club specializes in creating projects, publishing research papers, conducting workshops and internships with the sole motive of sharing knowledge and making technology available to everyone.

### **DEPICC: DIRECTIONS VIRTUAL TO VISUAL**

Solely digital design dedicated club at srm, and give extensive platform to learn, explore our creative mind and escalate to professional standards by getting connected with industries experts.

### **GITHUB COMMUNITY SRM**

The foremost student-led community spearheading the Open Source Revolution at SRMIST, Chennai, India. We aim to unify all SRMIST KTR projects under a single banner, the official GitHub organization of SRMIST KTR.

### **SRMAUV 2019-20 ZARNA - AUTONOMOUS UNDERWATER VEHICLE**

The aim is to prototype an Autonomous Underwater Vehicle with advanced underwater technology which can be used for various surveillance and marine applications.

### **GEEKS FOR SEEKS**

Is one of the oldest club in SRM campus, backed by the organization geeks for seeks, also dabbled with numerous non-technical events

### **Training activities**

- Bootcamp on "Build Your Own Virtual Assistant
- Workshop on "Cracking Product Companies with 30+ Lakh package - A Demo
- Hackerrank CODING TEST
- Tryhackme
- Skillrack
- HackTheBox
- RedHat Linux certification training
- Academic Alliance with Palo Alto Networks
- Academic Alliance with UiPath for Robotic Process Automation.
- BYJUS

### **Professional Associations**

- Computer Society of India(CSI)

### **Student Chapters**

- CSI(Computer Society of India) STUDENT Chapter
- ISACA –Student Chapter
- SRM-ACM Student Chapter

### **Associations with International Collaborations**

- SRM-ACM (Women) Chapter

**Rotaract**  
Rotary District 3232

# PUZZLE

What common word has 4 vowels, one after the other?

Forward I am heavy, backwards I am not. What am I?

## Sudoku

There are five houses of different colors next to each other. In each house lives a man. Each man has a unique nationality, an exclusive favorite drink, a distinct favorite brand of cigarettes and keeps specific pets. Use all the clues below to fill the grid and answer the question: "Who owns the fish?"

	House #1	House #2	House #3	House #4	House #5
Color	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Nationality	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Drink	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Cigarette	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Pet	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

The Brit lives in the Red house.  
The Swede keeps Dogs as pets.  
The Dane drinks Tea.  
The Green house is exactly to the left of the White house.  
The owner of the Green house drinks Coffee.  
The person who smokes Pall Mall rears Birds.  
The owner of the Yellow house smokes Dunhill.  
The man living in the centre house drinks Milk.

The Norwegian lives in the first house.  
The man who smokes Blends lives next to the one who keeps Cats.  
The man who keeps Horses lives next to the man who smokes Dunhill.  
The man who smokes Blue Master drinks Beer.  
The German smokes Prince.  
The Norwegian lives next to the Blue house.  
The man who smokes Blends has a neighbour who drinks Water.

## Alumni Talks

### PrepTalk on CRACKING INTERVIEWS

Join to know from the other side of the interview table conducted on 22.10.2021

**Convener and Co-conveners:** Dr.A.Rathinam, Director Alumni Affairs & NWC Alumni Team

**Speaker:** Mr. Sitangshu Sarkar (UG 2015-2019 Batch), Database Configuration Corporation Analyst, Cerner Corporation

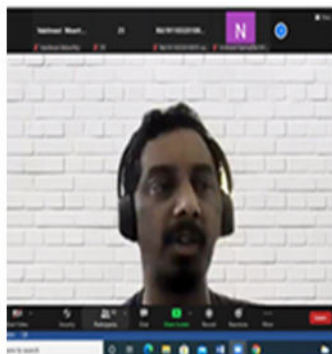

The alumnus focused on methods of learning programming skills. There is a very keen need to keep up periodically skilling the programming language that is been worked upon. This would open up more professional opportunities. A decision has to be made on the domain choice in line with the technical interests. Traditional programming skills will not help professionally in the longer run. At the same time, the foundations of programming languages are to be firm for good heights and to avail new promising opportunities.

### PrepTalk on CRACKING INTERVIEWS

Join to know from the other side of the interview table conducted on 08.10.2021

**Convener and Co-conveners:** Dr.A.Rathinam, Director Alumni Affairs & NWC Alumni Team

**Speaker:** Mr.Vamshi Kasula (UG 2011-2015 Batch), Software Development Engineer, AWS DynamoDB, Amazon Development Center, Bengaluru.

Various career choices for students post Bachelor's in computing (In and outside of computing) was discussed. The Kinds of technology used at AWS or other currentcloud computing companies were highlighted. The alumnus guest also tipped on how does it take to crack interviews at FAANG. Interview prep and how to tackle an interview were discussed. The dos and don'ts discussions were made on how to grow in your career once you are at a tech job.

# EVENTS

## Alumni Talks

### Pathway to Higher Educations-Abroad held on 09.12.2021

**Conveners:** Dr.Venkatesh,Dr.Nimala,Dr.Godwin,  
Mr.Joseph Raymond, Mrs.D.Saveetha

**Speaker:** Mr.Avinash R Maharaj, Software Engineer, Arista Networks-USA

Speaker elaborated on Higher Education and Opportunities, how to apply, the process,whom to approach, etc.

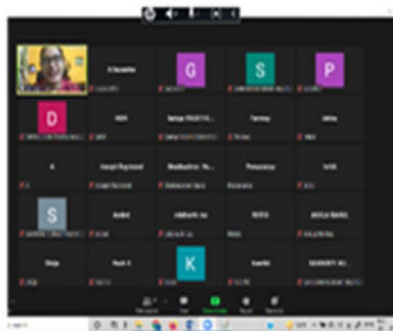

### Cracking the First Interview held on 17.12.2021

**Conveners:** Dr.Venkatesh, Dr.Nimala, Dr.Godwin,  
Mr.Joseph Raymond, Mrs.D.Saveetha

**Speaker:** Ms.Sriranjini A R, Support Engineer, Amazon

She elaborated on the ways to prepare for the interviews, how to clear the interviews and how to land on the dream job

### Journey from SRM to Dalhousie University, Canada:

### Higher Education and Opportunities held on 22.12.2021

**Conveners:** Dr.Venkatesh, Dr.Nimala, Dr.Godwin,  
Mr.Joseph Raymond, Mrs.D.Saveetha

**Speaker:** Ms.Perna Jain, IT Developer,  
Canada Revenue Agency

She elaborated on the Higher Education Opportunities, the job opportunities in Canada, how to apply and the process was elaborated.

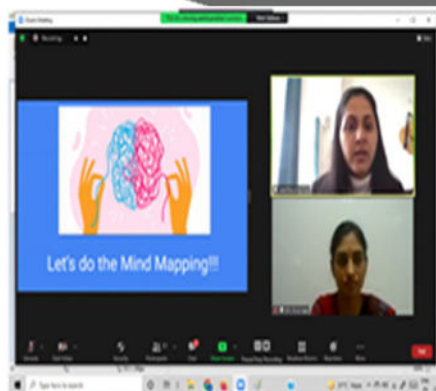

# EVENTS

## Alumni Talks

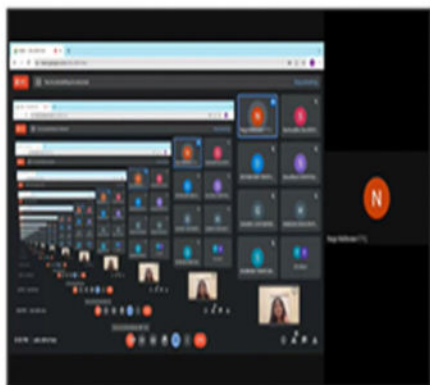

### Sketch Your Ideas-Mind Map held on 23.12.2021

**Conveners:** Dr.Venkatesh, Dr.Nimala, Dr.Godwin, Mr.Joseph Raymond, Mrs.D.Saveetha

**Speaker:** Dr. P. Supraja, Associate Professor, Department of Networking and Communications, SRMIST, Kattankulathur

Sketch Your Ideas is a mind mapping technique. It is an effective means to take notes and brainstorm essay topics. A mind map involves writing down a central theme and thinking of new and related ideas which radiate out from the center. Essentially, a mind map is used to 'brainstorm' a topic and is a great strategy for students.

### STUDYING AT IVY conducted on 10/01/2022

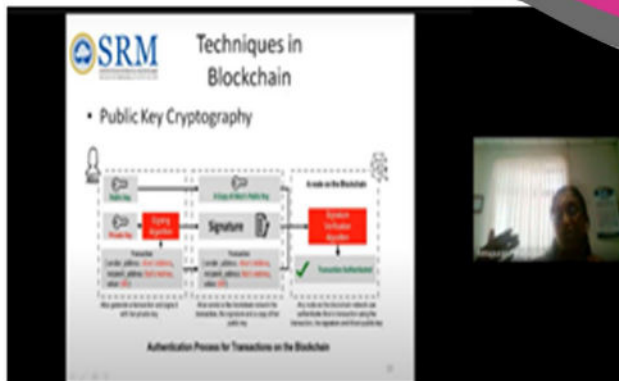

**Convener:** Dr. TYJ Nagamalleshwari

**Co-convener:** Ms. S Ushasukhanya

**Speaker:** Ms. Shreya Mittal, Specialist Product Management, Cornell University, US

Shreya started her talk with the preparation, tips, tricks, visa process for studying at Ivy. She continued to discuss the study and work at the university. She answered the queries asked by the attendees. It was a very informative session for the junior students.

# ASSOCIATION EVENTS

## Blockchain Technology and its Applications

**Convener:** Mrs. M.Safa, President

**Co-Conveners:** Dr. P.Supraja, Event and Logistics head, Dr. T.Sam Pradeep

This webinar is to give an overview of blockchain technology and a brief discussion on the potential applications. To highlight the current problems faced during money transactions and the possible solution for this.

## Valorant Gaming Tournament conducted on 21.11.2021

**Convener:** Mrs. M.Safa, President

**Co-Conveners:** Dr. P.Supraja, Event and Logistics head, Dr. T.Sam Pradeep

Team Alpha emerged as the winners of the tournament with a score of 13:7. The winners were awarded Rs. 1000 and with that the event came to an end at around 11:30 pm.

# ASSOCIATION EVENTS

## **UBA -Cycle Rally Awareness for Single Use Plastic**

**Convener:** Dr.V.Thirumurugan, Associate director, Campus life

**Co-convener:** Dr. P. Supraja Associate Professor/NWC, Dr.R.Rajkumar, Assistant Professor/DSBS

Awareness about the dangers of using plastic

The rally was flagged off by Mrs. Lakshmi, Municipal Commissioner, Maraimalai Nagar and gave a special address to the participants.

The bicycle rally started from the SRM college campus and proceeded to the adopted village of Kalivandapattu (about 35 km) and returned to the university campus to raise awareness about the dangers of using plastic (one time use plastic carry bags) . A pledge was taken not to use plastics.

# EVENTS

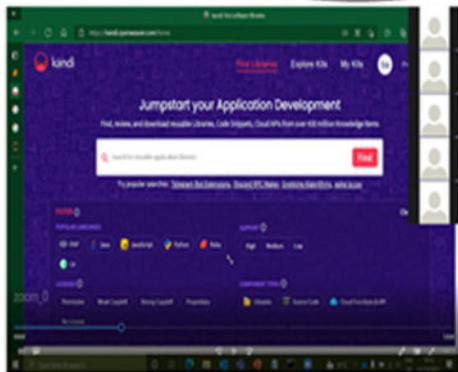

## Placement Talks

**Hands-on Bootcamp on Build Your Own Virtual Assistance was conducted on 01.10.2021.**

**Convener:** Dr.K.Annapurani

**Co-Conveners:** Dr.Vigneshwaran P,  
Dr. CNS Vinoth Kumar

**Speaker:** MR. Balaji Munusamy, Senior AI Engineer,  
Open Weaver, Chennai

This talk is to learn about Kandi and how to use it, building a basic virtual agent, using different libraries and data set for implementing in Virtual Agent, usage of multiple python libraries, and a great way to get lots of help and documentation on Kandi, about NLP and got an approach to create a virtual assistant.

**Orientation on Cracking Product Companies with Package 30+ Lakhs – Demo Session conducted on 04.10.2021**

**Convener:** Dr.K.Annapurani

**Co-Conveners:** Dr.Vigneshwaran P, Dr. CNS Vinoth Kumar

**Speaker:** MR. GururajanNarasiman, Senior Architect, Wipro Technologies, Chennai

Interview tips have been given by the speaker to all the attendees. Speaker gave the idea to the students to approach the problem while solving it. Some shortcut methods are also taught to all the attendees.

# EVENTS

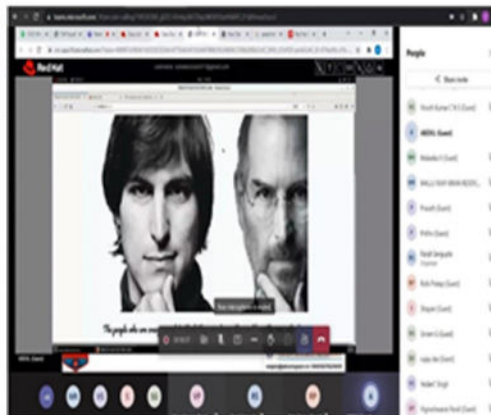

## Placement Talks

**Open Source and Skill Development Opportunities through RedHat Academy conducted on 01.11.2021 & 02.11.2021.**

**Convener:** Dr.K. Annapurani

**Co-convener:** Dr. CNS Vinoth Kumar,  
Dr. P Vigneshwaran

**Speaker:** Mr.Abdulmajeed khan Y, RHCA,  
RedHat Certified Architect,  
Vectra Technosoft Pvt.Ltd

To create opportunities for the development of talent within the country and improve the overall scope and space for underdeveloped sectors.

**Experiencing their Experience conducted on 16.12.2021**

**Convener:** Dr. V. Anbarasu

**Speaker:** Mr Nikil Sivaraman, Shrey Sachdeva

The talk content was presented based on the speaker's experience and their strategies towards the placement. Steps in attaining the milestone of getting a better placement opportunity were discussed at length. Participants' queries are answered to the best of their knowledge.

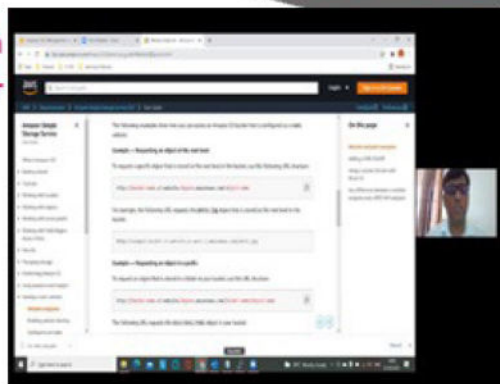

# EVENTS

## Other Technical Events

### Interdepartmental collaborative Tech Talk on Cloud Computing: A Career Perspective conducted on 13.10.2021

**Convener:** Dr. P. Balaji Srikanth, AP/NWC,  
Dr. S. Sadagopan, AP/CINTEL

**Speaker:** Mr. Pradeep Joy,  
Associate Director- Infra Services,  
DXC Technology,

The session was targeted at the Computer Science and Engineering Students specializing in Cloud Computing especially the second and third-year students. As the title says, the session talked about what are the various opportunities available in the cloud computing environment for an engineering graduate. The various levels of certification in Amazon Web Services and tips on successfully completing the certifications were also given.

### OWASP Student Chapter Inauguration

**Convener:** Dr. C.N.S Vinoth Kumar

**Speaker:** Mr. Sriram Kesavan,  
Founder and CEO of Cyberlabs,  
Google VRP Security Researcher and Bug hunter

OWASP is an extremely student skills improving organization that helps in contributing to build a safe and secure network and open-source enhancement. OWASP Chapters exist to raise awareness of the OWASP mission, making application security visible, at the local level. The main purpose also involves students in SRM-KTR contribute to projects, organize training and events, and find new ways to evangelize about application security in our college becomes a key to the success and growth of the much larger global organization.

# EVENTS

## Other Technical Events

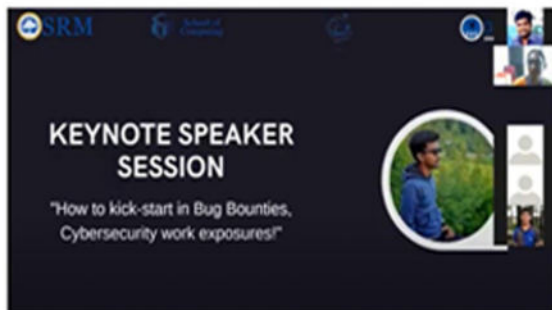

### How to Kick-start in Bug Bounties, Cybersecurity Work Exposures! conducted on 24.11.2021

**Convener:** Prof.Revathi Venkataraman

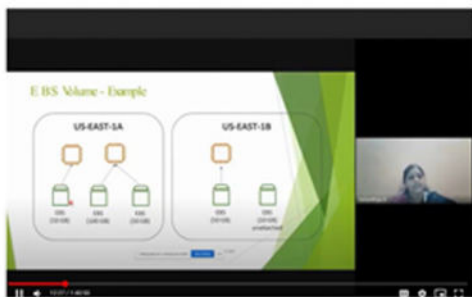

**Co-convener:** Dr.K.Annapurani

**Faculty Lead:** Dr.C.N.S Vinoth Kumar

**Speaker:** Mr. Sam Joy Herald Immanuel,  
Security Researcher, and Bug hunter

To enrich the students about the cyber security industry and provide tips and tricks, motivation needed to get started in bug bounty programs. The importance and relevance of cyber security and bug bounty programs were explained which sows the seeds to bring up the industry-standard cyber security professionals.

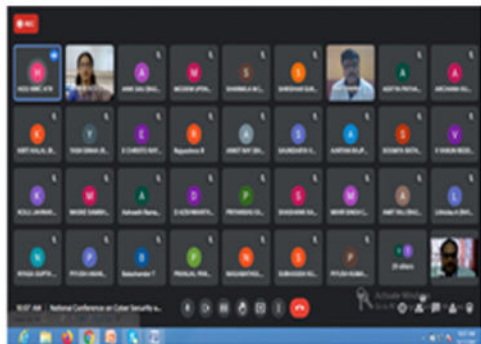

### One Week Workshop on AWS Cloud Practitioner Certificate Training conducted from 15.11.2021 to 20.11.2021

**Convener:** Dr. M. Saravanan

### National Conference on Cyber Security and Digital Forensics conducted on 17th and 18th December 2021

**Convener:** Dr.M.B Mukesh Krishnan,  
Associate Professor

**Co-Convener:** Mr. T.Balachander,  
Mr. V Joseph Raymond

# EVENTS

## Research Talks

Date	Speaker	Topic	Outcome
23.10.2021	Mr. M.Prabhakaran	Doctoral Research Strategies	An overview of research programme and various strategies like paper publications, patents, problem formulation, etc., are discussed.
23.10.2021	Ms.M. Mageshwari	Attacks in the cloud	This talk is about different types of attacks that exist in the cloud domain across various services and how to mitigate them.
27.11.2021	Mr. Deepan S	Interesting Facts about copyright vs Trademark vs Patent	Facts about copyright, trademark, and patents were explained. The difference in understanding the terms was discussed.
04.12.2021	Ms. M. Madhavi	How to write a Research paper	This talk is about to give a glimpse of how to properly structure the content in writing a research paper.
11.12.2021	Ms. M. Meenakshi	R programming in Machine learning	Overview of Machine Learning, Supervised and Unsupervised learning and Learning Algorithms
08.01.2022	Mr. Arun Prasath G	Bluetooth Low Energy	Overview of Bluetooth energy optimization

**“தொட்டனைத் தூறும் மணற்கேணி மாந்தர்க்குக்  
கற்றனைத் தூறும் அறிவு.”**

**“In sandy soil, when deep you delve, you reach the springs below;  
The more you learn, the freer streams of wisdom flow.”**

**பொருள்:**

**தோண்டத் தோண்ட ஊற்றுநீர் கிடைப்பது போலத் தொடர்ந்து படிக்கப்  
படிக்க அறிவு பெருகிக் கொண்டே இருக்கும்.**

**Explanation :**

**Water will flow from a well in the sand in proportion to the depth to which it is  
dug, and knowledge will flow from a man in proportion to his learning.**
