POLICY ON ENERGY UTILIZATION

Preamble

SRM Institute of Science and Technology (SRMIST) is one of the top-ranking institutes in India. SRMIST offers various undergraduate, postgraduate, and doctoral programs in different faculties. The optimum utilization of energy will result in sustainable development. Electricity and liquefied petroleum gas (LPG) are the primary energy utilized on the campus. The energy policy was developed to enhance the efficient consumption of electricity and LPG.

Policy Statement

The energy policy of SRM Institute of Science and Technology is to

- Enhance energy independence with sustainable approaches.
- Increase the production of electricity from renewable sources.
- Increase the solar power generation capacity by 10% per year.
- Reduce the LPG consumption with biogas produced from processing food waste.
- Maintain the solar thermal plant efficiency to enhance heating facilities.
- Encourage the purchase of BEE rated/equivalent energy-certified products.
- Monitor the performance of unitary and isolated air conditioners to maintain their efficiency.
- The stakeholders shall responsibly turn off the electrical applications after their respective usage.
- Maintain the necessary compliance obligations as per the legislative authorities.

All the students, research scholars, teaching and non-teaching staff, and other external stakeholders are responsible for maintaining the energy policy, wherever applicable.
