

# SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

## FACULTY OF SCIENCE AND HUMANITIES

### DEPARTMENT OF COMPUTER SCIENCE

**Faculty Coordinators:** Dr.M. Ramesh, Dr.Kanchana. S,

Dr. Sweety Bakyarani. E, Dr. S. Revathi

**Date & Time:** 4<sup>th</sup> March 2024 – 11<sup>th</sup> March 2024, Time: 10.30 AM – 11.30 AM

**Venue:** Virtual Mode through Zoom platform

**Event :** Faculty Development Program,

Breaking ground: Emerging trends and Research in AI & ML

**Collaborating Department:** NA

**No. of Participants:** 37 (Paid Participants) + 10 (Non Paid internal SRMIST participants)

#### Objective of the Event:

This faculty development program aims to bridge the gap between industry and academia by bringing together experts from both sectors to explore and discuss the emerging trends in Artificial Intelligence (AI) and Machine Learning (ML). This program seeks to provide a platform for collaboration, knowledge exchange, and networking between professionals from academia, who specialize in research and education, and those from industry, who possess practical experience and insights into real-world applications of AI and ML.

#### ABOUT US

SRM Institute of Science and Technology is one of the top ranking universities in India with over 52,000 full time students and more than 5200 faculty across all the campuses - Kattankulathur, Ramapuram, Vadapalani Campus - all in and around Chennai, Tiruchirappalli (in TN), Madinagar (in UP) & Sonapat (in Haryana) - both of which are located near Delhi NCR, Amaravati (in AP), Gangtok (in Sikkim) - offering a wide range of undergraduate, postgraduate and doctoral programs in six Faculties - Engineering & Technology, Management, Medicine & Health sciences, Science & Humanities, Law and Agricultural Sciences. The University is committed to be a leading player in the academic world through excellence in teaching and research, while placing utmost value on the freedom to conduct academic activities and subject to the highest standards of academic integrity.

#### DEPARTMENT OF COMPUTER SCIENCE

The Department of Computer Science, Faculty Of Science And Humanities, SRM Institute of Science and Technology stands as a beacon of innovation and excellence, deeply committed to pioneering research in cutting-edge technologies. With a relentless pursuit of pushing the boundaries of knowledge, the department serves as a dynamic hub where creativity, collaboration, and curiosity converge to shape the future of computing. At the heart of our department's mission is a dedication to exploring the forefront of technological advancements. Our research-centric approach extends beyond the confines of traditional academia, fostering strategic partnerships with industry leaders, government agencies, and other academic institutions. Through these collaborations, we aim to not only advance fundamental knowledge but also translate our research findings into real-world solutions that drive innovation and societal impact.

#### OBJECTIVES OF THE FDP

In the rapidly evolving landscape of technology, Artificial Intelligence (AI) and Machine Learning (ML) have emerged as transformative forces, reshaping industries and influencing every facet of our lives. For faculty Members in educational institutions, staying abreast of the latest trends in AI and ML research is not merely an option; it is an imperative that directly impacts the quality of education, research, and the overall academic experience. As AI and ML continue to evolve, they are likely to play an increasingly integral role in various research domains. Familiarity with the latest trends puts researchers in a better positioned to shape the future direction of their research fields and anticipate upcoming challenges. This faculty development program aims to bridge the gap between industry and academia by bringing together experts from both sectors to explore and discuss the emerging trends in Artificial Intelligence (AI) and Machine Learning (ML). This program seeks to provide a platform for collaboration, knowledge exchange, and networking between professionals from academia, who specialize in research and education, and those from industry, who possess practical experience and insights into real-world applications of AI and ML.

## Brief Description about the Event:

The Faculty Development Program on Recent Trends in AI and ML was exceptionally well-received, providing participants with valuable opportunities to engage with prominent figures from both the IT industry and academia. The session featured numerous demos, and insightful discussions on practical test cases were held, proving to be exceptionally valuable for the participants.

The following topics were discussed in the Faculty Development Program:

Day 1 04-05-2024	Dr. Prema Kirubakaran A Associate Professor & Head Department of Information Technology & Information Systems Faculty of Computing, Nile University of Nigeria.	AI & ML Reshaping the future with unimaginable research and Innovation (11:30 AM - 12:30 PM)
Day 2 05-05-2024	Ms. Viji Vijayan Data Scientist Datayaan Pvt.Ltd Chennai	Revolutionizing Healthcare: Harnessing AI and ML to Revolutionize Patient Treatment and Recovery (10:30 AM - 11:30 AM)
Day 3 06-05-2024	Mr. Naveen Kumar M Senior Software Developer Expeditors International Chennai	Exploring the Future: Gen AI in Software Development (10:30 AM - 11:30 AM)

Day 4 07-05-2024	Ms. Aashwin R Data Scientist Datayaan Pvt.Ltd Chennai	Revolutionizing Agriculture: Harnessing AI and ML for Precision Agriculture (10:30 AM - 11:30 AM)
Day 5 08-05-2024	Dr. Gowtham R Assistant Professor, Christ University, Bangalore	Future Frames: Pioneering Research areas in AI and ML (10:30 AM - 11:30 AM)
Day 6 09-05-2024	Dr. Surendiran B Professor Department of Computer Science and Engineering, National Institute of Technology, Puducherry	Gen AI for Education and Research (10:30 AM - 11:30 AM)
Day 7 11-05-2024	Dr. Neela Narayanan V Professor Department of Computer Science and Engineering VIT Chennai.	ML for Healthcare A Case Study (10:30 AM - 11:30 AM)

## What is Digital Healthcare?

- Digital healthcare involves the integration of digital technologies in healthcare.
- The main objective of digital healthcare is to enhance the efficiency of healthcare services.

healthcare feeds are widely rapidly growing in our country also the worldwide, so the digitalization in many sectors like E commerce applications

## Healthcare – Digital Trends

heart surgeries are there nowadays there is keyhole surgery that is minimally inverse

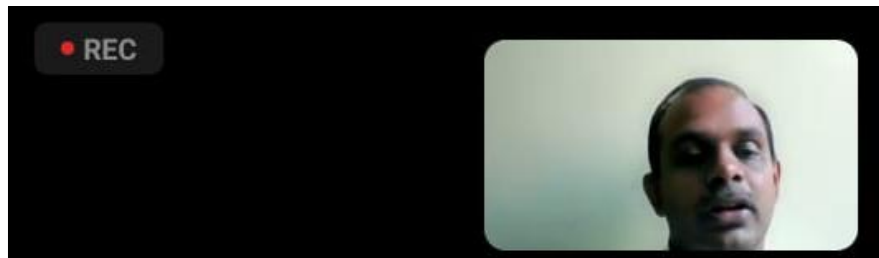

**Impact of Gen AI on Software Development Processes**

**Increased Efficiency and Productivity:**

- Automated Tasks.
- Faster Prototyping

**Improved Code Quality:**

- Bug Detection and Prevention
- Static Code Analysis

## EXCEL AI

**Microsoft Excel AI Insights:** Enhances Excel's data analysis and visualization capabilities, offering advanced data analysis, data visualization tools, natural language queries, and AutoML capabilities.

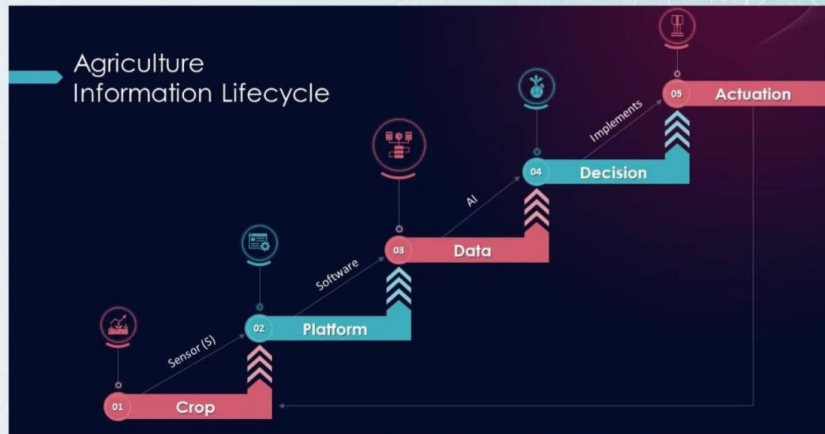

**Klipa Excel Insights:** Provides real-time analytics, forecasting, and trend analysis within Excel, along with tools for data connectivity and custom dashboard creation.

**DataRobot:** A machine learning platform that simplifies model deployment in Excel for predictive analytics, featuring AutoML, model evaluation, and data preparation tools.

**Power Query:** A data transformation tool in Excel designed for importing, transforming, and preparing data, with capabilities like automated data refresh and merging/appending data.

**Sheetgo:** Automates data consolidation and sharing between Excel spreadsheets, offering workflow automation and automated data consolidation features.

## Lifecycle

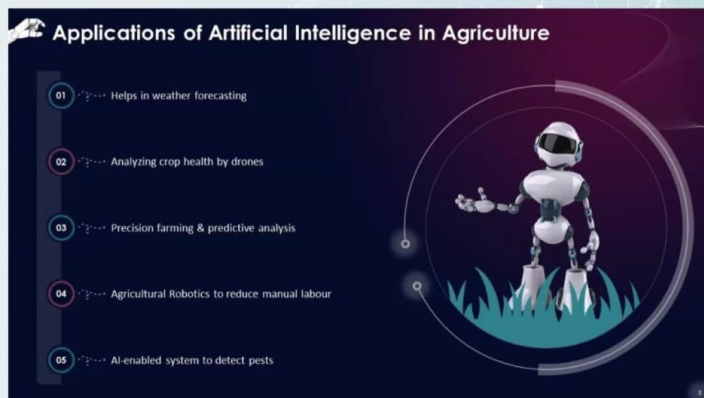

## Top Technologies in Agriculture using AI

- Agricultural Bots
- Self-Driving Combines
- Automated irrigation system
- Monitoring livestock health - CattleEye
- Automatic weeding and harvesting

## Applications used in agriculture
