Conference Theme

The focus of the conference is to learn and analyze the multi disciplinary modules of biochemistry and to study the key concepts in latest innovations in biochemistry oriented tools. The conference consists of plenary lectures from invited speakers and oral presentation/posters by the delegates.

The topics of interest includes the following broad areas but not limited

Cancer
Biology

Stem cell
Biology

Plant
Metabolites

Herbal
Medicine

Immuno
Technology

Nanoscience

Agricultural
Sciences

Genetics

Drug
Development &
delivery

Bioinformatics

Cash prizes will be awarded for the best Oral
paper and poster presentation.

About SRMIST

SRM Institute of Science and Technology is all about creating an environment of academic freedom, where bright minds meet, discover and learn. One would experience top of the world living and learning experience at SRMIST. Vision and Mission of SRMIST is to emerge as a World - Class University in creating and disseminating knowledge, and providing students a unique learning experience in Science, Technology, Medicine, Management, Social Sciences and Humanities.

About FSH

Faculty of Science and Humanities began its journey in the year 2003 with a single department and now has 24 departments which offers 53 programmes (31 – undergraduate, 19 – postgraduate, 1 – PG Diploma, 2 – Diploma). FSH offers an education model that emphasizes Critical Thinking, Collaboration, and Problem Solving. This in turn provides you with the knowledge and skills to achieve your goals and earn a position of leadership within your chosen profession.

Department of Biochemistry

The Department of Biochemistry FSH, SRMIST, was established in the year 2021, with a long term insight and objective of creating a research - oriented division with inter disciplinary ideas and initiating teaching, research and training programs across the diverse areas of life sciences. The department has emerged as a hub for state-of-the-art research fields related to Molecular Biology, Biochemistry and Bioinformatics. The department also offers a flexible curriculum that covers all the emerging fields of study in Biochemical sciences.

The department is known to have evolved as a research department where intense and advanced research on cancer and stem cell technology is carried out by the fellow research scholars.

Abstract Submission

Abstracts based on the above themes are invited for paper presentation from Students, Research scholars, Faculties, Scientists of Life Science disciplines. Abstracts should not exceed **250 words typed in MS word, with 12 font size, Times New Roman and 1.5 line spacing.** A precise title should be given followed by names of the authors (with the presenting author underlined) affiliation and address of the Institution. The assessment committee reserves all rights to select an abstract for both oral and poster presentation.

The abstracts should reach us through the below e-mail ID on or before **31/01/2024**.
