ABOUT THE INSTITUTION
SRM Institute of Science & Technology was initially started as SRM Engineering College in the academic year 1985-1986 at Kattankulathur, Kancheepuram District, Tamil Nadu. SRMIST was established in the year 2003 and the Faculty of Engineering and Technology (E&T) was carved out, which now consists of all the schools and departments related to Engineering and Technology including Architecture and Interior Design in seven different campuses namely Kattankulathur, Ramapuram, Vadapalani, Modinagar - New Delhi, Amaravati - Andhra Pradesh, Haryana and Sikkim. The other faculty under SRMIST includes Medical & Health Sciences, Science and Humanities, Management, Law and Agriculture Sciences. The main sylvan campus of Kattankulathur consists of a lush green environment with a built up area of 1,70,000sq.m for Laboratories, Workshops, Library, Classrooms, Technology Park etc. Excellent infrastructure and world class facilities in the institution help the students and faculty members to pursue their research in an efficient manner. For further information about our institution, please visit the following URL: www.srmist.edu.in

ABOUT THE DEPARTMENT
Department of Networking and Communications under School of Computing provides quality and value-laden education for students in the traditional and contemporary areas of Information Technology, Networking, Cloud Computing, IoT and Cyber Security. The department moulds students with good ethical practices, thus showcasing their all-round personality development. The department consists of a medley of faculty members with industrial and academic experience. Research in the department focuses on creating and evaluating innovative learning experiences, inspired by educational principles and technical progress.

CONFERENCE SCOPE
The Department of Networking and Communications, School of Computing of SRM Institute of Science and Technology, Chennai, India is conducting the Second Edition of International Conference on Networking and Communications (ICNWC 2024) on April 02nd to 04th 2024.

In today's world everything has become networked and all objects are well connected for exchange of data and controlling them using networking technologies. Now with the current development in Internet of Things, Edge/Fog Computing, Communication Technologies, this conference will act as a major forum for the presentation of innovative ideas, approaches, developments, and research projects in the area of Networking and Communications Technologies. It will also help to enable the sharing of information between researchers, academicians and industry experts in order to debate the most recent concerns and developments in the field of computer science and information technology research.

Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the domain.

Topics of interest include, but are not limited to, the following:
- 5G and beyond networks
- Big data and machine learning for networks
- Cellular networks
- Cloud computing / mobile cloud computing
- Challenged Environments (underwater, underground)
- Cross-layer optimization and control
- Crowdsourcing
- CubeSats
- Cyber-physical systems
- Datacenter networking
- Dynamic spectrum sharing
- Energy efficiency in networks
- Edge and fog computing / networking
- Fault tolerance, reliability and survivability
- Information security and privacy
- Information-centric networking
- Interference management and mitigation
- Internet of Things
- Localization and location-based services
- Medium access control

PAPER SUBMISSION
Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this conference. Authors can submit papers at https://cmt3.research.microsoft.com/ICNWC2024 Accepted and presented papers will be published in the IEEE ICNWC2024 Conference Proceedings and submitted to IEEE Xplore® for inclusion which will be indexed in Scopus. Full details of submission procedures and requirements for authors are available at the conference website.

Note
- Only presented papers will be considered for publication.
- Hybrid mode for conference is permitted only for International authors.
- Any Indian authors should attend the conference in person for presentation.

REGISTRATION FEE (*Registration fee will not be refunded at any cost)
