- **EVENT ORGANISED BY: SRM SCHOOL OF TEACHER**

“KEEP YOUR FACE TO THE SUNSHINE AND YOU CANNOT SEE A SHADOW”

Dr. Helen Keller

We started our field trip from college around 9:30 am. It was lot of fun in the bus, we were accompanied by our coordinator DR.Bharathi and Ms.Analakshmi .We reached our destination around 10:30 am. Then after the arrival we were directed by Ms. Vijaya. She was from administration department at NIEPMD.

We then had the induction program at the conference hall along with hot cup of tea. After seeing the videos played during induction we were all emotionally unstable and felt how blessed we all are.

After sometime we divided ourself into two groups with the guide member of NIEPMD. There we got clear picture of NIEPMD operations, facilities and functions.

NIEPMD OPERATION:

Its main objective is to serve as a national resource Centre for the Empowerment of persons with Multiple disabilities(Divyangjan) such as those with two or more disabilities in a person.

The facilities available in NIEPMD:

- Medical services
- Physiotherapy

- Occupational Therapy
- Speech therapy
- Early intervention
- Special Education
- Psychology Intervention
- Vocational training
- Orthotic services

CLINICAL PSYCHOLOGY:

We were able to have interaction with the head of clinical psychologist who explained the various process and Research and Development programs carried out in NIEPMD. Along with this service they even offer courses for students those who want to do their masters in clinical psychology.

The main services offered are:

- 1.IQ Assessment
- 2.Diagnostic assessment
- 3.Intervention
- 4.Neuro psychological
- 5.Behaviour modification
- 6.parent training program
- 7.Mental health program
- 8.Diagnose mental illness

DISABILITY IS JUST DIFFERENT ABILITY

Early Intervention:

The next phase in post lunch session we had opportunity to know the early intervention therapies carried out in NIEPMD.

The steps carried out in Early Intervention:

- 1.General observation(Screening session will be done by paediatrician)
- 2.Occupational
- 3.Physiotherapy
- 4.Psychological therapy
- 5.Speech therapy
- 6.Group therapy
- 7.Behavioural therapy
- 8.Special education
- 9.Preparatory school(3-6years)

Thus, we had good interactive session. The facilitator had clarified our doubts then and there. We even had chance to meet some of the special children and interact with them. And even saw how the therapist are handling the students with care. One more interesting thing in NIEPMD is that they even have model school named as “Thiramai” to cater educational needs of clients with multiple disabilities.

After visiting NIEPMD we came to college with heavy heart thinking of those children and their family. Then we students of B.Ed. batch (2022-204) discussed among ourself that we can plan a visit to do community service in NIEPMD in near future.

MODEL SCHOOL
