I-GAUGE

SUBJECT RATINGS

Congratulatory Note

QS I-GAUGE would like to extend a note of thanks to SRM Institute of Science and Technology, Kattankulathur, Tamil Nadu, for participating in the QS I-GAUGE Subject rating for the Architecture subject. It has been a pleasure working with your institution. It is noteworthy to mention that without your cooperation and support, the audit process would not have been a big success.

Congratulations from the QS I-GAUGE team to SRM Institute of Science and Technology, Kattankulathur, Tamil Nadu, on attaining a PLATINUM+ rating.

License Validity:
27.08.2024 to 27.08.2026

launches
School Ratings

Why Subject Ratings are Important?

Students

Institutions

Students consider subject-specific information and academic reputation than that of the institution or University.

1

It can be used to determine which schools/institutions are the leaders in key academic subject areas.

"Subject Excellence" has emerged as one of the key drivers in the applicant's choice.

2

It gives prospective students the tools to accurately compare universities within their own country in the respective field of study.

Besides good teaching, faculty quality, employability and specialised infrastructure facilities, student choices are determined by subject specialisation.

3

It helps institutions identify their strengths and areas of improvement, and further aid in strategic planning.

Students these days know what they want and look for the exact information. Subject Ratings ensure they can make an informed choice on the place of study for the subject they are interested in.

4

Institutions can promote its official subject badges, and significantly increase their brand presence to recruit high-value faculty, establish brand-building partnerships and external funding in subject-specific areas.

Overall Student Satisfaction

20/20
points

Student Satisfaction with the following parameters	%
1. Curriculum, course design, course delivery and assessment	94.92
2. Practice-based approach	88.14
3. Specialised architectural infrastructural for conducting practical training	89.13
4. Technology integrated simulation classroom model	94.92
5. Optional/elective courses provided for my academic development	94.92
6. Holistic learning approach adopted by the institution	93.22
7. Core learning materials well supported by additional learning reference & publications as part of courses design	94.92
8. Class schedule and the delivery of the course	94.92
9. Communication received regarding changes in the schedule/course structure or teaching methods	94.92
10. Learning Management System	74.58

Overall Student Satisfaction

Overall Alumni Satisfaction

20/20
points

Alumni Satisfaction with the following parameters	%
1. Overall education experience received from the institution	90.24
2. An edge in the workplace due to academic qualification combined with practical experience	75.61
3. Employment opportunities and career guidance services extended by the institution	63.41
4. On-job internship/hands-on training programmes	68.29
5. Activities/engagement focused towards building an active alumni network	80.49
Overall Alumni Satisfaction	75.61

AE5

Library Facilities

20/20
points

Active International subscriptions
for EBooks/Journals/Repositories

American Concrete Institute
Always advancing

Taylor & Francis
Taylor & Francis Group

And many more...

Architectural Ecosystem

50/50
points

Technology integrated classroom approach

Specialised course credits integrating use of computer applications in mainstream architectural design curriculum

Simulation integrated classroom approach

Specialised course credits integrating use of digital simulation for studying design problems through experimental architecture

Practice based model/approach

Internship-based credits

Studio Based

Specialised course credits integrating use of studios/laboratories for design process, thinking and development

AE7

Sustainable Architecture

20/20
points

Training/seminars/Guest lectures in the areas pertaining to sustainable communities, building sustainable habitats, climate change conditions, heritage awareness, and heritage preservation for students, research scholars, and practitioners.

Specialised Architectural Infrastructure

40/40
points

Architectural Design Studios

Material Museum

**Exhibition Space for 2D and 3D
models/Design events**

**High Tech Computer Labs with Advanced
Computer Applications**

AE9

Research Centres/Labs/Projects Sanctioned

**20/20
points**

**Seed funding towards Centre for
planning/sustainable infrastructure**

Projects sanctioned

Accolades

Accolades/Recognition won for architectural designs/projects
