TATA STRIVE-SRM - INDUSTRY COLLABORATION

Sequel to the MoU established with the TATA Strive, the orientation and counseling session was organized for the students.

About the Program:

The Cyber Security Program offers a comprehensive curriculum that covers various aspects of the field, including information and network security, device security, cyber laws, social engineering, and identity management. It is designed for graduate learners in technology or math, BCA, MCA, BSc IT, Computer Science.

CyberShikshaa+ [Full time course]

This CyberShikshaa+ [Cyber Security Analyst] course aims at developing Engineers and other Graduates to be employed at organizations responsible for protecting information and information systems from unauthorized access, use, disclosure, disruption, modification, perusal, inspection, recording, or destruction. They also need to ensure the confidentiality, integrity and availability of data to the 'right' users within/outside of the organization.

In this course, extensive hands-on practice is provided for the topics of Network Security Threats and Countermeasures, Cryptography, and Web Server and Application Security. Additionally, Industry expert's sessions, self-learning materials and life skills are also incorporated into the curriculum to respective colleges itself.

Objective

- Train youths from disadvantaged backgrounds
- Focus on girls to improve women participation in workforce
- Access to quality standardized training programmes
- Designed for scale-up – inclusion of engineering/ MCA colleges
