## ZOO Outreach Program

**HARMONY WITH NATURE : ZOO OUTREACH PROGRAM**

The Aringnar Anna Zoological Park,-Vandaloor has a Zoo School (AAZP), the aim of AAZP is to conduct outreach programs to increase awareness regarding wildlife and ecological conservation amongst the student community. The AAZP conducted an exclusive outreach for 52 of our First Year B.Sc. Computer Science students on Thursday, 19-10-2023.

The students had the invaluable opportunity to witness and learn firsthand about the meticulous care and dedicated conservation efforts implemented by the zoo during the outreach program. They were enlightened about the diverse laws implemented by the government to safeguard nature and wildlife, gaining a comprehensive understanding of the regulatory measures aimed at conservation.

The day culminated with students taking a collective pledge to contribute in their own small ways towards conserving nature, recognizing it as the greatest gift bestowed upon us by God.

The faculty in-charge for the Outreach were Mr. M. Ramesh, Dr. Kanchana. S and Dr.Sweety Bakyarani.E
