GOVERNMENT SCHOOL VISIT

On 21ˢᵗ February 2024, a group of 3 students and 4 faculty members had the privilege of visiting Potheri Government School. The purpose of our visit was to conduct an informative session, where we had the opportunity to teach digital technologies in teaching to the students. Our visit began with a warm welcome and a brief introduction to the students. We also gave an overview of the smart board utilization in learning and teaching with the students. The session began with a discussion on teaching tables on smart boards to students where we used smart boards to write and make the students understand the various features by utilizing smart learning and teaching.

Next, we gave practice to students how to utilize smart board for writing, erasing, creating new files etc., using Microsoft power point. Following that, we delivered into Microsoft PowerPoint, Microsoft word, notepad where we taught how to utilize basic functionalities in computers. Our Organizers practically taught them how to utilize smart board for various activities.

Throughout the visit, the Organizers and staff of our institute were very welcoming and enthusiastic, sharing their expertise of utilizing smart learning and with the students. It was a valuable experience for students that expanded their knowledge and equipped them with essential skills for using these software applications effectively. For the students of grades 1 to 5, different fun activities singing, dancing, ballon blowing, quizzes were conducted by our faculties, and goodies were given to the winners. Here is the list of winners Sanjana, Dhanush, and Haresh for the drawing competition using a computer. We were grateful for the opportunity to have engaged with such dedicated and passionate individuals during the visit.
