

## **Department of Mechanical Engineering**

### **National Academic Immersion Program**

National Academic Immersion Programme was organized for the students of Maharashtra Institute of Technology, World Peace University, Pune. The main objective of this program is to provide the quality education through mixed culture and environment. This programme is conducted on the area of Automation and Robotics through SRM-BRIN centre. A team of 38 students of Mechanical Engineering discipline from MIT WP University, Pune, with 2 faculty members attended this program from 2.7.2024 to 9.7.2024 (8 days). Dr. Murugesan and Dr. Oliver Nesa Raj were the course coordinators.

During this program, theoretical, practical sessions were arranged to students and also an industrial and cultural visits organized. Students learnt a new area in Mechanical Engineering in which we are expertise. In addition to the quality education, they enjoyed the SRM campus life, our culture, food and interacted with the students of SRMIST.

Finally, the students were evaluated by examination and provided with a certificate. Students felt this NAIP was a different way of enriching their knowledge, 8 days were not sufficient and in future it may be extended to at least a month
