Founder Chancellor Dr. T. R. Paarivendar

FROM THE CHANCELLOR

I am pleased to share that SRM Institute of Science and Technology (SRMIST) is releasing its Annual Report for 2024-25, highlighting the institution's achievements and milestones over the past year.

Through its multidisciplinary programs spanning six faculties, SRMIST continues to lead in innovation, addressing critical global challenges in collaboration with top universities across India and around the world.

Reflecting our commitment to excellence, SRMIST has been ranked 11th among universities in India by the NIRF 2025. Additionally, we are proud to have achieved the highest NAAC accreditation grade for three consecutive cycles, starting from 2013 – a testament to our sustained focus on quality education, research, and institutional development. Our 4th cycle grade of A++ is valid until 2031.

Even before the introduction of the National Education Policy (NEP) 2020, SRMIST had already embraced several of its core principles – including credit transfers, outcome-based education, student migration from other institutions, credits for MOOC learning, interdisciplinary projects, open electives beyond one's specialization, value-based education, and multilingual learning. With the NEP now being actively implemented, even more students and faculty are poised to benefit from these transformative policies.

Our mission is to offer world-class programs that spark curiosity, drive innovation, and contribute to global knowledge, with a strong focus on sustainability. Our partnerships with over 60 of the world's top universities and 300 corporate organizations further enhance the strength and relevance of our academic and research endeavors.

As we look to the future, we remain guided by the belief that education is not merely the transmission of knowledge, but the illumination of the human spirit. In nurturing inquiry, compassion, and creativity, we prepare our students not only to succeed in the world, but to shape it—toward a more equitable, sustainable, and enlightened tomorrow.

Dr. T. R. Paarivendhar

J. RESEARCH FOCUS

SRM Research Institute

SRM Institute of Science and Technology has set up Research Institutes to mobilize the knowledge resources available for research and to come up with innovative solutions. The research institutes are operational in Bangalore and Chennai. Each of these centers is focused on a niche research area(s) to collectively address a wide variety of problems. These centers are interlinked, interoperated, and are virtually located.

The centers function in a cooperative manner to identify and initiate foundational multi-disciplinary research and applied research projects, create and combine patentable Intellectual Property (IP) components, design and develop prototypes and proof of concepts, manage and market products and solutions (through know-how transferred incubated companies), and win and work to deliver funded research projects.

VISION

- Establish state-of-the-art multi-disciplinary, inter-disciplinary and co-disciplinary research institute in a dynamic, competitive and vibrant environment.

MISSION

- Provide excellent research culture and infrastructure
- Serve as a platform for strong interdisciplinary collaborations and knowledge sharing

SRMIST is recognized across the country for its high standards of education, exciting opportunities and excellent placement. To maintain its top position, the University is spearheading with Semester Abroad Program (SAP), a unique initiative providing its students an international exposure and global opportunities. This, we believe, is the first of its kind in India.

Under the Semester Abroad Program the students are allowed to take-up a few courses and -or a Major project in reputed foreign universities for ONE semester. The credits earned in the foreign university through the SAP will be translated into SRM credits, by an approved conversion procedure, and taken for consideration for the award of the degree by SRM IST. After the study period at a foreign university the students return to SRM IST to continue with the degree program for which they were enrolled, and after fulfilling all the necessary conditions laid out in the regulations of SRM IST, the student will become eligible for the award of the degree.

N. INDUSTRY - INSTITUTE INTERACTION CELL

SRMIST to be the Centre of Excellence for Industrial Research in India Mission

To make SRM IST a pivotal node in Industrial Research, Consultancy, Continuing Education for Industry Preamble

SRM IST has placed emphasis on the cultivation of strong links with industry and promotion of various industrial activities by the faculty members and students. In order to keep up with the growing volume of industrial liaison activities, and even more importantly, to catalyze the further growth and development of interaction between the Institute and Industry, a separate cell (Industry-Institute Interaction Cell - IIIC) was established in the year 2007.

IIIC coordinates with all the faculties of the University and Industry,

- To have a closer linkage and promote research suited to industry needs, and consultancy which creates a sense of owning among faculty members
- To provide continuing education to people working in industries, so that they can upgrade their technical knowledge, and - or obtain higher degrees; this orients the faculty members towards the industry from the portals of University i.e. Academics
- To enable academics to take a sabbatical in industries; provide internships for students in industries, which will prepare the students better for entering the industry;
- To create an industrial chair in the university; and to enable the appointment of experienced industry resource persons as visiting faculty in the University
- IIIC has brought about a number of MoUs and Agreements with various industrial and research organizations in different fields and sectors to promote various forms of interactions.

In his address, he stated, "Knowledge is the greatest power of all, it embodies innovation, entrepreneurship, science, technology, research, skills, and successful practices. The ability to transform knowledge into wealth will define the future of every nation and every field.

Our Prime Minister's dream is to make India the world's third-largest economy. As the fastest-growing economy, our mission is to build an Atmanirbhar and Viksit Bharat, a self-reliant and developed nation that leads the world as a Vishwa Guru.

The true strength of any powerful nation lies in its commitment to futuristic development, in innovation, research, and technology. These are the foundations on which India's progress and global leadership will be built."

Prof. Bharat Bhasker, Director, Indian Institute of Management, Ahmedabad, said, "To the graduating students, I wish to say this: you are the future of this country. India stands at a defining moment of transformation, a transition towards becoming one of the world's largest economies and a global leader. The responsibility of this growth rests on your shoulders.

Wherever you go, whether you enter the industry, research, or pursue your own start-ups, give your best with both heart and mind. The nation's progress will be built on your innovation, integrity, and commitment. Together, let us ensure that India reaches the heights it rightfully deserves."

The Annual Report of the Institution was presented by Prof. C. Muthamizhchelvan, Vice Chancellor, SRMIST, who said, “This year, SRMIST has achieved remarkable milestones, from NAAC A++ accreditation for the third consecutive time and 11th rank in NIRF 2025, to 491 patents and 42 startups incubated. Scholarships worth ₹108.18 crores supported 7,000+ students, ensuring that talent thrives regardless of social or financial barriers, while our academic and research initiatives continue to drive innovation and global engagement.”

He also emphasised, “At SRMIST, diversity and inclusion are central to excellence. Among 15,105 graduates, 55% of Ph.D. graduates and 75% of rank holders are women, and notably, two transgender students graduated this year, a testament to our commitment to celebrate every learner, every journey, and every identity. With students from 65+ countries, SRMIST shapes graduates to be torchbearers of inclusion, builders of equity, and catalysts of global change.”

Thousands of students received their degrees across diverse disciplines, marking the culmination of years of dedication and academic excellence. Among the rank holders, female graduands stood out across all agriculture programmes, exemplifying the empowerment of women in science and technology. This year also witnessed two transgender students graduating from SRMIST, an inspiring testament to the university’s inclusive spirit and commitment to diversity.

The ceremony was a vibrant confluence of tradition, pride, and forward-looking optimism, reaffirming SRMIST’s stature as a premier institution shaping the future of education and innovation in India.
