A NATIONAL LEVEL TECHNICAL SUMMIT

T
summit

73 - 14 JULY

About SRM University

SRM University, regarded as one of India's top Universities, offers a wide range of programs in the fields of Engineering, Management, Science and Humanities, Health Sciences and Medicine. With a wide diversity of students and rich infrastructure the university thrives to be a center of Innovation. Established in 1985, SRM University has been known for its educational excellence in teaching and research. The University offers courses in various disciplines. SRM has over 50,000 students from across the globe under the guidance of over 3000 expert faculty members.

About AARUUSH

Aaruush is the National Level Techno-Management fest conducted in SRM University. Inaugurated in 2007 by late President Dr. A. P. J. Abdul Kalam, the fest now boasts of a foot-fall of more than 45000 and has been the trendsetter in the field of technology and innovation.

Technical Summit

SRM University has always taken strides towards technological advancements and fulfilling the idea of the the notion of Innovation and completing this idea of the University, the Technical Summit (T-Summit) intends to contribute to the society by developing innovative ideas. Innovation is a long process that proposes an irrefutable outcome of development. T-Summit is the confabulation of the intellectual cream of the nation for sessions of unparalleled brain-storming. It will provide a common platform for fruitful interaction amongst the colleges of India - to come together and deliberate on issues pertaining to progress and development of the nation as a whole.

The Honorary Chief Guest presiding upon proceedings will be **Mr. Avinash Chander, Former Director General of Defence Research and Development Organization**, along with the **Guest of Honor, Mr. Atul Gurtu, a leading High Energy Physicist** who led the 70 member team from India which participated in the **CERN experiment** of first proton run at the **Large Hadron Collider**.

Theme

The summit intends to focus on the essentials of Innovation and develop a market space within which the system can unlock new forms of values and break the traditional boundaries to achieve novelty. The theme of the summit is '**Young Innovation**' through which the summit plans to define clear roles for propelling the innovation agenda and aims to foster a learning group for their overall development.

Prerequisites for attending

The following are the prerequisites for attending the summit:

- 2-3 representatives from each college's techfest organising team.
- The attendee should carry a letter authorizing his/her visit from their respective Head of the Institution.

Delegate Session

The summit will focus on the following points:

- Enhancing the Innovation in India.
- The strengths and weaknesses of Innovation in India.
- The contribution, of your techfest, in the technological advancement of the country.
- Ideas to foster the Innovation.
- The above points will be highlighted in the presentation prepared by every participant.

Round Table Conference

The summit expects to bring out Visionary and Strategic Innovators, Discoverers and Experimenters for the development vision. This can be premeditated through a Round Table Conference, which will incite the delegates to take arduous steps towards societal contribution to the society and bring out the necessary outcome.

This T-Summit can best work together to prepare students to be professionals who use new technologies, business models, and societal innovation to make a positive impact on the world. It aims to generate dynamic discussions regarding how higher education and industry can collaborate to cultivate the talent development required for the 21st century workforce.
